Swing the garden doors open to find a hearth room (camelback sofa, tea table, cookstove, rag rug) and a little bedroom (patchwork bed, bookcase, braided rug).

CLOSED: 3.05 × 1.73 × 2.88 IN

snug in a palm or a pocket

Before you begin

What you need

- 3 sheets of US Letter cardstock, 65–80 lb (175–216 gsm). Matte card takes glue best.
- Colour printer set to 100% / Actual Size. Check the 1-inch bar in each footer with a ruler.
- Craft knife with a fresh blade, small scissors, cutting mat and a metal ruler.
- Scoring tool: a dry ballpoint pen, embossing stylus or the back of a butter knife.
- Tacky craft glue (applied thinly with a toothpick) plus a glue stick for laminated pieces.
- Tweezers or a bamboo skewer for the tiny furniture tabs.

Reading the sheets

Solid line — cut.

Dashed line — score and fold toward the plain side (print outside). Only the room boxes H6–H7 fold toward the print.

7 — Hatched glue tab, numbered. Glue tab 7 …

7 — … to the edge carrying the matching 7 label.

glue — Dotted glue zone — another piece glues here.

S1 — Piece code. Each code is also on the piece's first tab.

Tips

- Score every dashed line before you cut, then pre-fold each piece once before gluing.
- Glue tabs go on the unprinted side and end up hidden inside.
- Doubled pieces (camelback, arms, head- and footboard, pillows, doors) fold in half and glue back-to-back.
- Leave the furniture loose so you can rearrange it, or tack it down with a dot of glue.
- Never glue the doors shut or the latch band to the house.

The finished cottage

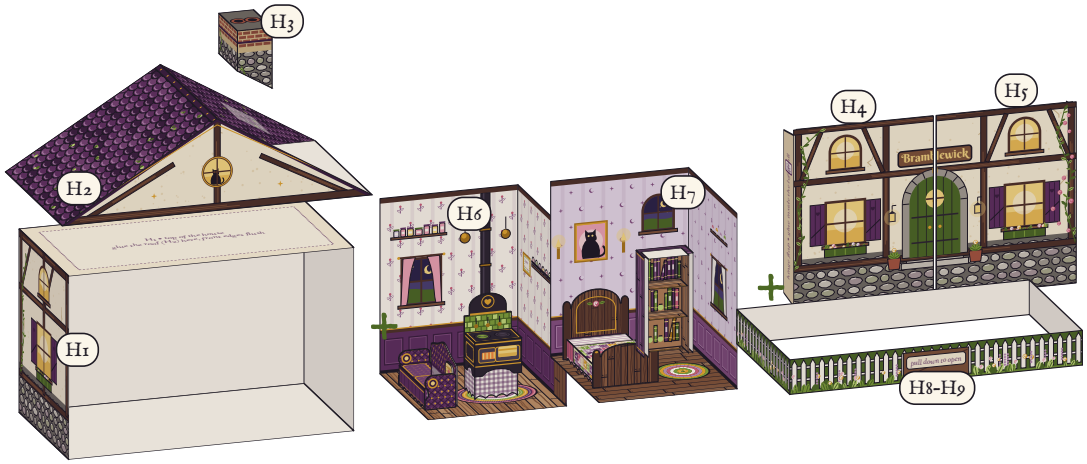

Closed: 3.05 W × 1.73 D × 2.88 H in (with chimney and band); opens to about 5.6 in across.

Each room: 1.34 W × 1.46 D × 1.71 H in inside. Scale 1:96 (1 in = 8 ft).

Build the house

1 Score, cut, pre-fold

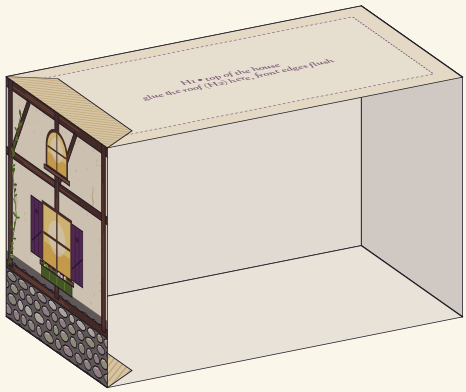

Score every dashed line against a metal ruler with a dry pen, then cut the solid lines. Fold each piece once along its scores before you glue anything.

2 Fold the house shell H1

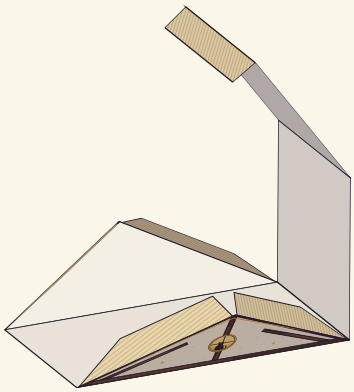

Fold the side walls, floor and ceiling of H1 toward the plain side (print outside). The front stays open.

3 Close the shell

Glue tabs 1–2 under the floor and 3–4 inside the ceiling. Square the box on the table and let it set.

4 Fold the roof H2

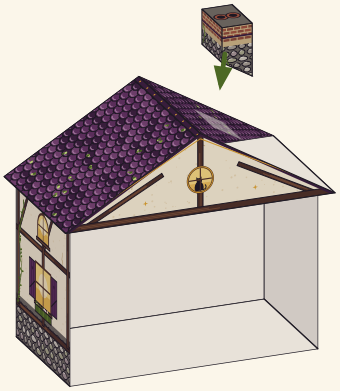

Fold H2 into a long triangle: tab 5 closes the slope seam; the gable ends close with tabs 6–9 tucked inside.

5 Roof on

Glue the roof's flat underside onto the top of the shell, centred: equal overhang left and right, flush at the back.

6 Chimney H3

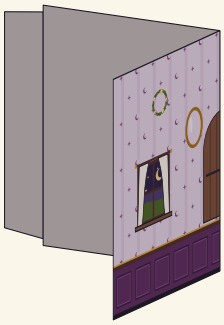

Fold H3 into a box, tab 10 closes it, caps 11–16 fold inside. Glue it upright on the right-hand roof slope.

7 Line the doors H4 & H5

H4 (back view)

H5 (back view)

Fold each door's lining (the papered half) over the plain back along the centre score and glue it flat with a glue stick. Leave the narrow hinge flap free.

8 Fold the hinge flaps

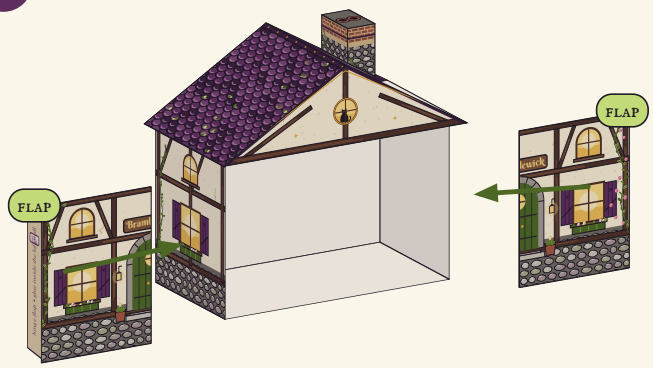

H4 (back view)

H5 (back view)

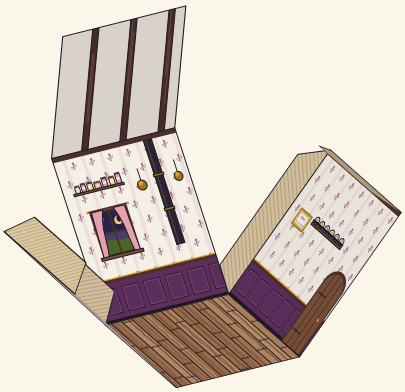

Fold each hinge flap back at a right angle. The fold line is the door's hinge, so crease it crisply but don't glue it to the door.

9 Hang the doors

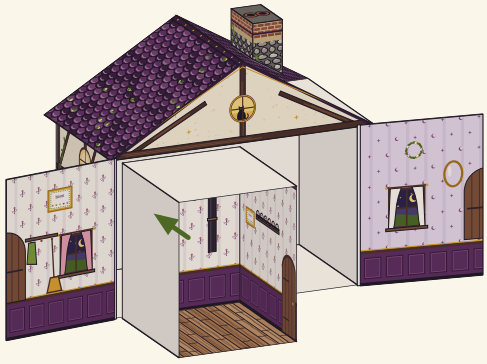

Slide each door's hinge flap just inside the open front of the shell and glue it to the inner face of its side wall, door edge flush with the wall. Check the doors meet without rubbing.

10 Fold the hearth room H6

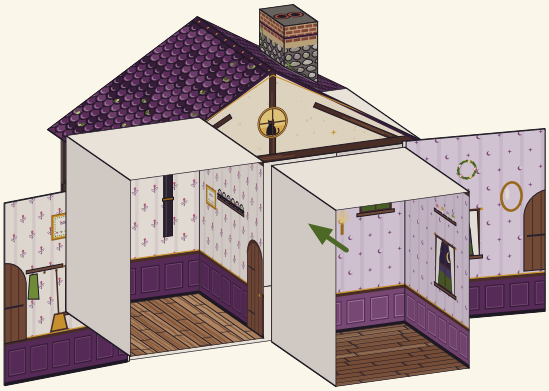

H6 is printed on the inside. Fold the walls up and the ceiling forward; tabs 17–18 glue to the back wall, 19–20 inside the ceiling.

11 Slide it in, left side

Push H6 into the left half of the shell, open side to the front, over the left hinge flap. A thin line of glue on the outside of its back and floor holds it.

12 Bedroom H7, right side

Fold H7 the same way (tabs 21–24) and slide it into the right half, butting against H6. Both rooms sit just behind the doors.

Hearth-room furniture

13 Sofa seat S1

Fold S1 into an open-bottom box; tabs 27–30 glue inside the corners. Use tweezers to press them.

14 Doubled sofa parts

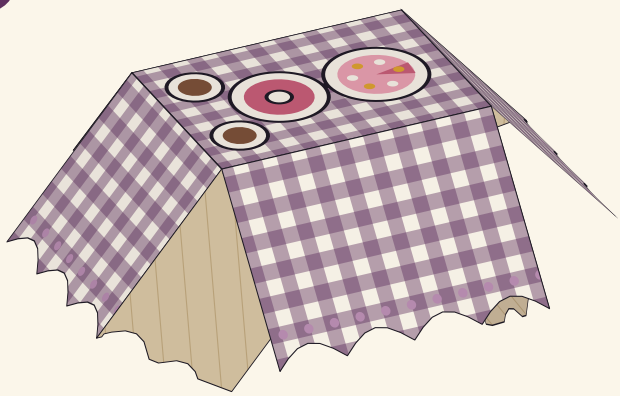

Fold the camelback S2, arms S3–S4 and pillows S5–S6 in half on their scores and glue each back-to-back. Trim any edge that peeks.

15 Assemble the sofa

Glue S2 to the back of the seat, S3 and S4 against the ends (scroll at the front), then lean the pillows on the camelback.

16 Tea table T1

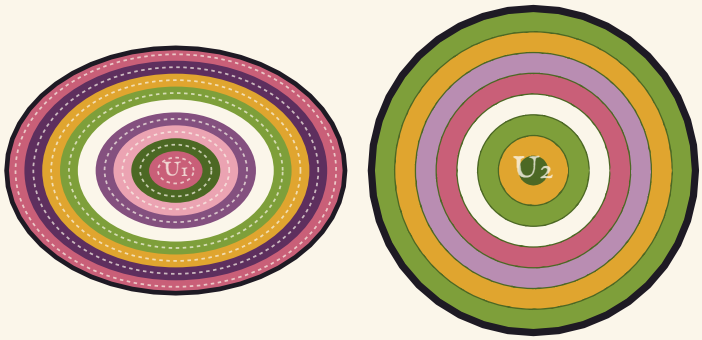

Fold T1 the same way as the seat (tabs 31–34). The scalloped skirts hang straight down.

17 Cookstove K1 + K2

Fold the stove box K1 (tabs 35–38). Double K2, then glue it to the back of the stove so the warming shelf stands up behind it.

18 Rugs U1 & U2

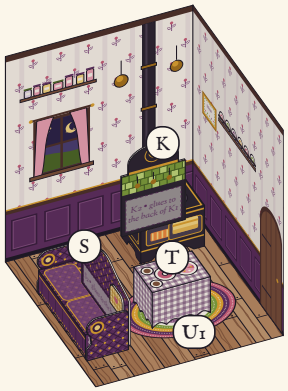

Cut out the two rugs; they need no folding. A dot of glue keeps them flat on the floor.

Furnish & finish

steps 19–24 • furnish both rooms, bed, bookcase, latch band

19 Furnish the hearth room

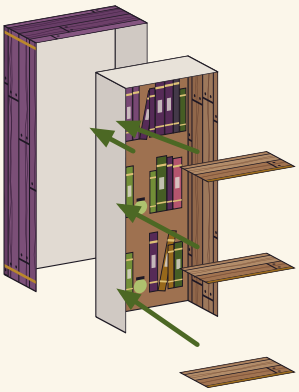

Lay the rag rug U1, then set the sofa S against the left wall, the tea table T on the rug and the cookstove K at the back right.

20 Bed base B1, ends B2-B3

Fold B1 (tabs 39–42). Double the headboard B2 and footboard B3 and glue them to the bed's back and front ends.

21 Bookcase C1-C5

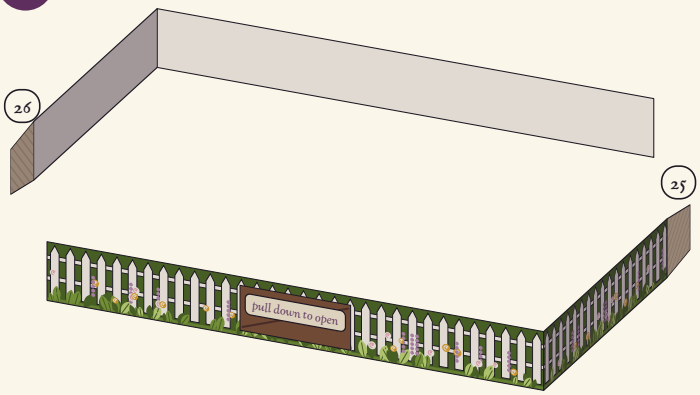

Fold C1 (tabs 43–44) and the lining C2 (45–46); slip C2 inside C1 and glue. Glue the shelves C3–C5 in, tabs folded up, on the side lines.

22 Furnish the bedroom

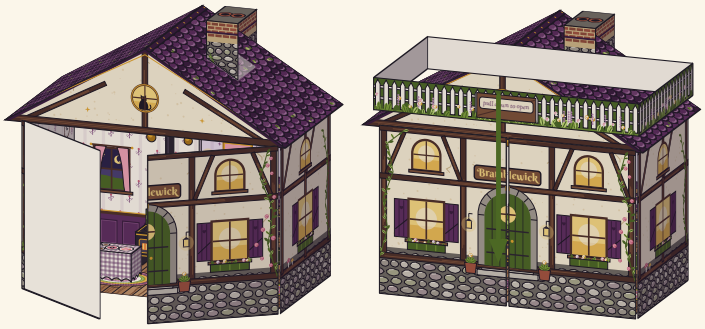

Lay the braided rug U2, set the bed B in the back-left corner (pillow against the headboard) and stand the bookcase C at the back right.

23 Latch band H8 + H9

Glue tab 25 of H8 inside the end of H9 and tab 26 of H9 inside the end of H8 to make a loop. Don't glue it to the house.

24 Close it up

Swing the doors shut and slide the fence band over the bottom of the house so it holds them closed. Pull it down to open.
